Learning Outcomes

On completion of this course, learners will be able to:

- LO1: Explain how Gemini works across Google Workspace, write effective prompts and apply responsible data, privacy and verification controls.
- LO2: Draft, rewrite, summarise and refine workplace content in Docs, Slides and Gmail while preserving source accuracy, audience fit and human approval.
- LO3: Clean, organise, analyse and visualise spreadsheet data with Gemini in Sheets, formulas and reproducible checks.
- LO4: Design an AI-assisted workflow across Meet, Drive, Sheets, Docs and Gmail, then implement and verify a bounded Workspace automation.

Learning Reinforcement

- Every topic is followed by hands-on labs that learners complete on their own machine.
- Each lab ends with a 'Test it' verification step so learners can confirm their own progress.
- The trainer circulates during lab time to give individual feedback and unblock learners.
- Each topic closes with a recap mapped back to the course learning outcomes.
